

LEGEND & CO.

DESIGN CONSULTANTS

EXPERIENCES  
THAT ARE  
WORTH  
REMEMBERING.

Hello..

SUN

# CRAFTING LEGENDS THROUGH DESIGN

Our mission at Legend&Co. is to design experiences that uplift the human spirit. From a young age, our founder's imagination was set ablaze by inspirational tales vividly shaping in her mind as clouds drifted and trees reached to the skies.

As an architecture student, she discovered that these stories held the power to ignite creative concepts and solutions. Throughout the years, this methodology of conjuring legends took root. With each new design challenge, Her mind would wander - envisioning the inhabitants and experiences for any potential spaces; rooms and facades would emerge, bringing those visions of humanity to life.

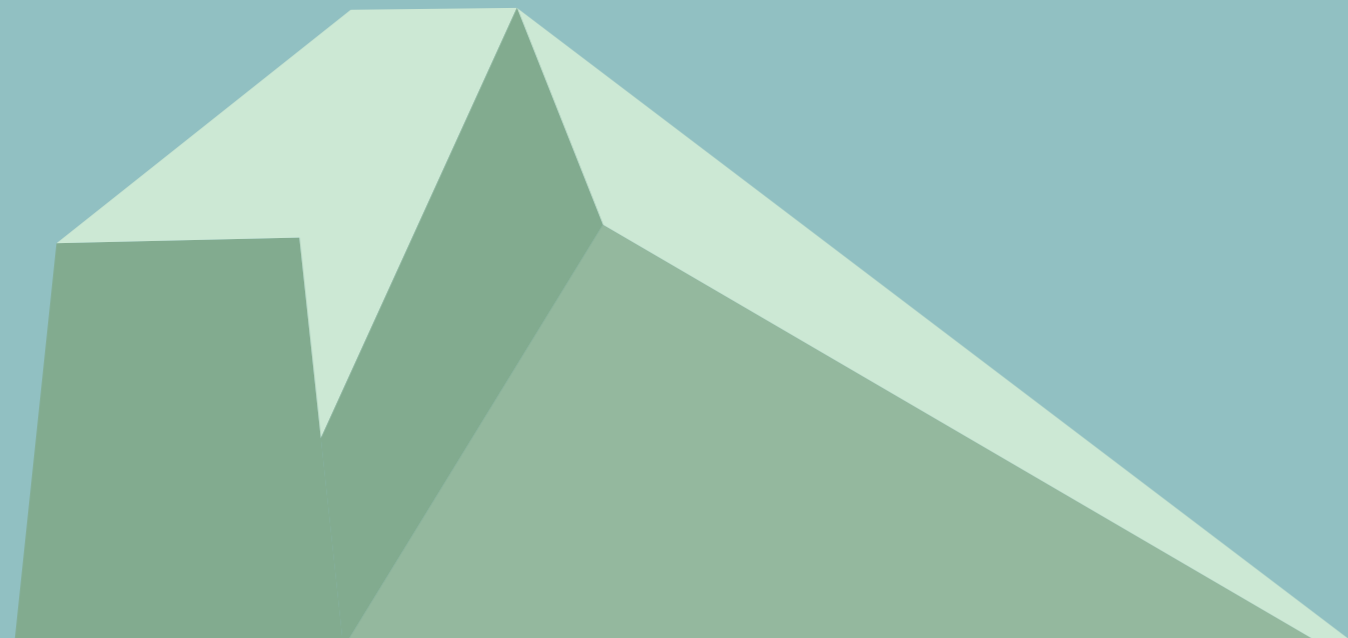

Just as these inner dreamscapes guided blueprints, so too did they inspire artwork. Canvases became portals to surreal stories conveyed through colors, textures and shapes, all waiting to be brought into the light of day.

Now, through Legend&Co., we empower others to unleash their own legends either through design studios crafting inspired solutions or in galleries awakening dreams through visual worlds, imagination knows no bounds.

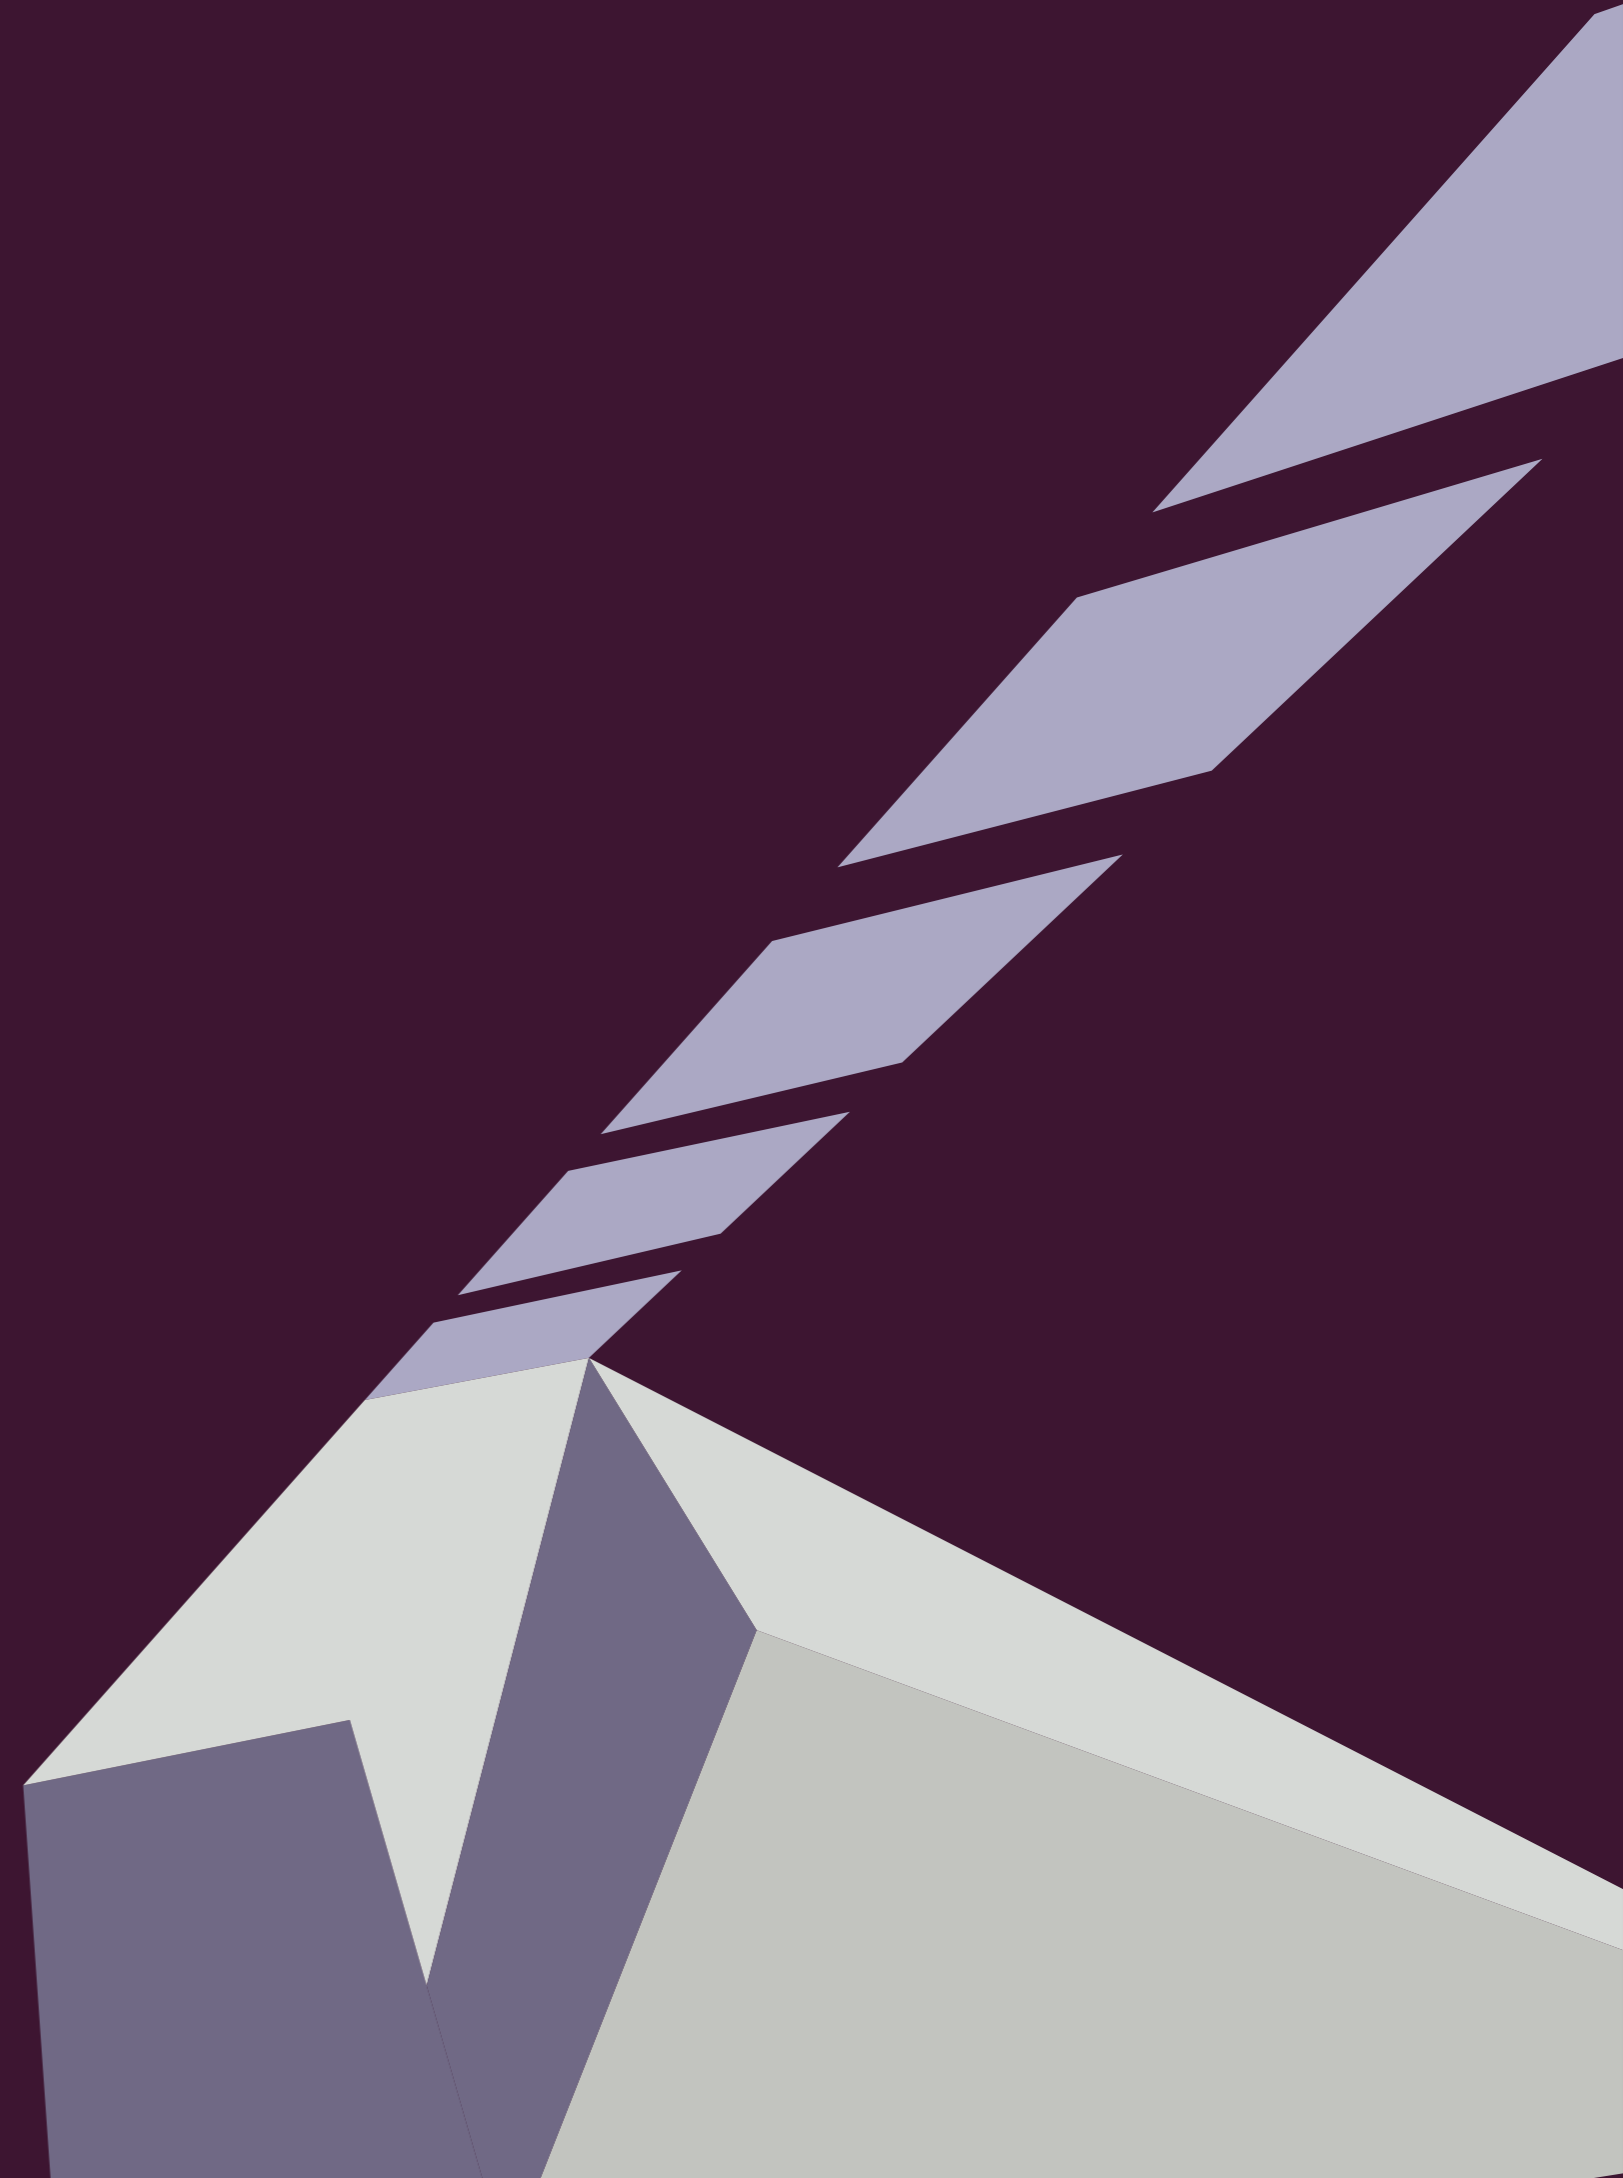

Here, passion is the process. Stories are the muse. And the spaces, art, and innovations born from this methodology of sculpting possibilities elevate all who encounter them with soulful wonder. Join us in crafting new legends that stir the human spirit through design.

WE AIM FOR  
DESIGNING  
BETTER LIVES.

# ABOUT LEGENDS

## Vision

To be recognized and trusted for our ability to create meaningful and impactful experiences that captivate people's emotions and transform spaces into soul-stirring environments.

## Mission

Our mission is to elevate living and workspaces by offering comprehensive design solutions that seamlessly blend aesthetics, functionality, and emotional resonance.

## Our Values

### Collaboration

We believe great ideas emerge at the intersections of disciplines. Our integrated process nurtures vibrant exchange that elevates every perspective. For clients, this means fully-optimized solutions beyond any single field.

### Excellence

Every detail matters in achieving our purpose. We attract lifelong learners determined to rise to each complex challenge with vigor, care and open-mindedness. Clients partner with the best of the best.

### Sustainability

Environmental stewardship is woven into every material and line of code. For clients, this translates to future-focused designs maximizing social, financial and planetary well-being for generations.

### Innovation

We pioneer new frontiers through scientific experiments, humanitarian-driven research initiatives and ambitious constructions. Clients are empowered to realize previously unimaginable goals.

“Sculpting new possibilities with integrated thought and action”

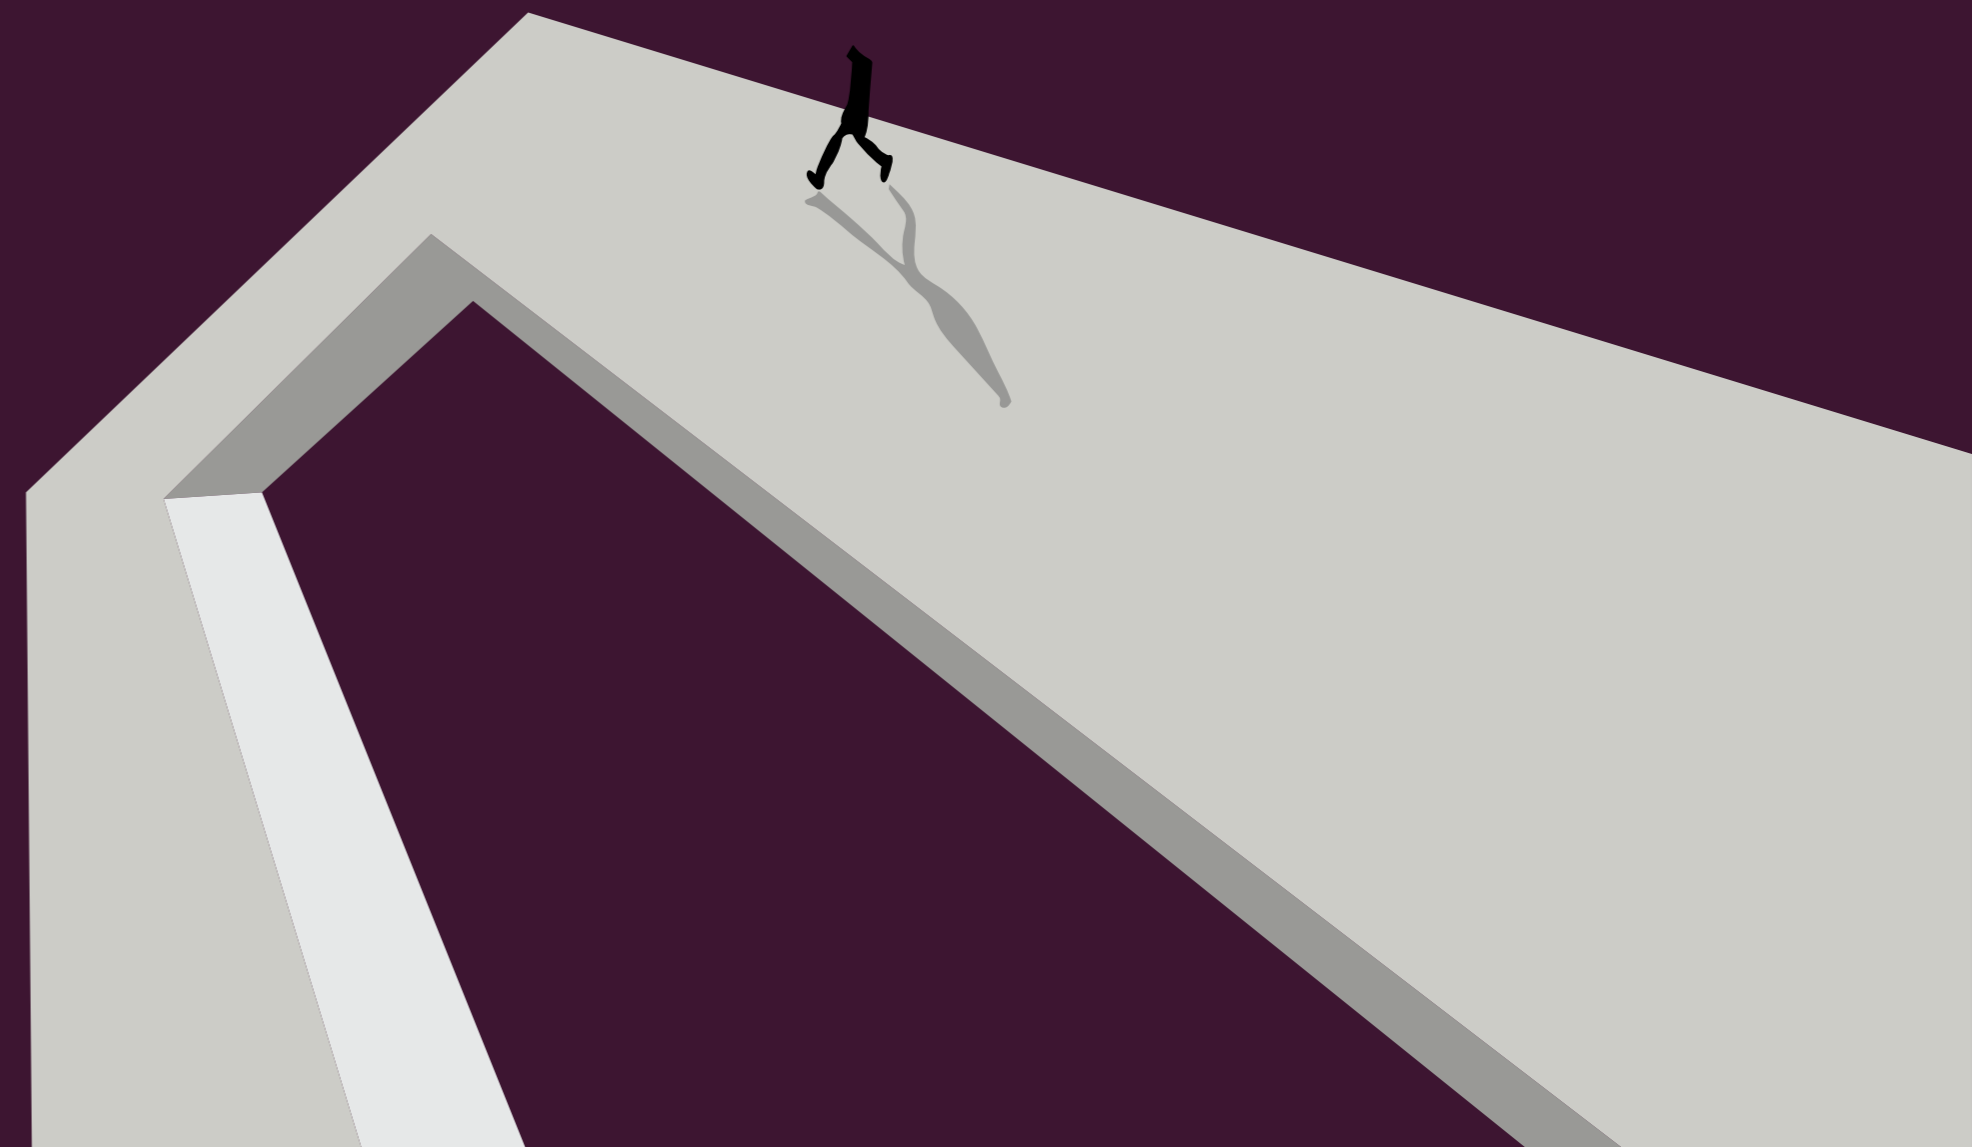

EXECUTED WITH  
CARE, ARTISTRY AND  
TECHNOLOGICAL  
PROWESS.

# OUR SERVICES

# 01.

## Architecture & Interior Design

We offer complete architecture and interior design solutions for all types of projects including corporate, hospitality, commercial and residential projects.

Our accumulated experience gives us an edge in creating innovative designs that are functional and innovative at the same time.

Our workflow ensures attention to details at all project phases, mapping user activity and creating custom-made solutions for every project.

02.

## Brand Identity Interior Solutions

Our corporate work builds on our client identity and brand, helping them shape it into key words that must be reflected in our concepts and design

# 03.

## Acoustics & Lighting Consulting

Light and sound are crucial to every design.

Our goal is to create experiences that are worth remembering.

Stimulating senses in our design solution is vital to every project type according to each activity's special needs

# 04.

## Landscape Architecture

We provide landscape design that complements and integrates with the architecture and interior design of projects. It is essential for our crafted story to convey a sense of continuity in concepts and ideas throughout all aspects of the project.

# 05.

## Urban Planning

Our team of highly skilled professionals combines their academic knowledge and expertise to deliver cutting-edge urban design solutions for projects that demand a comprehensive understanding of various disciplines.

06.

## Project Management & Construction Supervision

At the heart of our services lies the commitment to materialize our visionary creations into actuality. This is accomplished through turnkey solutions and strategic collaborations with top-tier contracting firms. By effectively managing all project stakeholders, we ensure a seamless delivery of our conceptual designs.

# 07.

## Structural, Mechanical, Electrical Engineering

With a focus on integration and functionality, our team of experts offer complete engineering solutions to ensure optimal coordination and practicality.

08.

## Furnishing & Styling

With a keen eye for detail and a commitment to excellence, we provide turnkey furnishing solutions that encompass the entire spectrum of your project. We meticulously curate selections, seamlessly incorporate bespoke elements, and foster collaborations with an array of furniture suppliers.

“Reasons to believe”

#### **Holistic Solutions**

By uniting diverse specialists, we craft tailored solutions optimized across technical, human and environmental impacts. Clients benefit from unified solutions beyond any single perspective.

#### **Deep Expertise**

With decades of experience across +15 disciplines, unparalleled insights and intellectual capital are applied to each unique undertaking. Complex challenges have no blindspots.

#### **Global Network**

of preeminent industry specialists and sub-consultants. Our reach and ability to build superlative teams is unmatched.

#### **Positive Impact**

Wellness, ecology and social progress are deliberate objectives, leaving a legacy of benefit. Clients choose a partner committed to a better future through responsible, innovative design.

#### **Track Record**

of transforming vision into reality on ambitious projects - From frameworks to final commissioning, our fully-integrated process navigates the most difficult roads to vision. Complex projects are seamlessly delivered on ambitious timelines and budgets.

WHY  
LEGENDS ?

# A MESSAGE FROM OUR FOUNDER

**Nevine Hamza**  
Founder  
Chief Design Officer

“

With a combined experience of over 20 years, Legend&Co has leveraged our diverse talents to reimagine the built environment. The challenges we face demand integrated solutions crafted by visionaries across disciplines. At Legend&Co, we are honored to unite such pioneers under a shared purpose: to engineer a brighter future for humanity through design. While many firms focus narrowly on aesthetics or functionality alone, we believe that integrative design achieves excellence by optimizing beauty, performance, and wellness as one.

As global challenges intensify, the need for holistic approaches grows ever more urgent. Legend&Co remains dedicated to using design for good - to enhance lives, strengthen communities, and safeguard our planet. I am proud that even our largest projects stay deeply rooted in these human-centered values.

Thank you for your partnership. I look forward to continuing our journey together toward a brighter future through design.

Sincerely,

*Nevine Hamza*
